Andrew Cutz, CIH Archives of Environmental and Occupational Health

Archives of Environmental and Occupational Health

As Editor in Chief of Archives of Environmental and Occupational Health, the oldest journal in the field in North America (published continuously since 1919), I am pleased to forward the following offer from the publisher: Taylor and Francis is...

John Cherrie Increased risks of kidney cancer and non-malignant kidney disease associated with exposure to the chemical PFOA (which is also known as C8).

Increased risks of kidney disease associated with exposure to PFOA

This blog is about exposure science, occupational hygiene and the work that I carry out at the Institute of Occupational medicine in Edinburgh, UK. I have a particular interest in chemical exposures in the workplace and the...
